

I was born and raised in Phoenix, Arizona, I attended Martin Luther King Jr. elementary school and Percy L. Julian junior high school located in South Phoenix. I attended East High School until 1982 the year it closed, I would then continue my high school years and graduate from Central High School in 1984. After graduating from high school, I enrolled at Scottsdale Community College to obtain an Associates Art degree in Computer Programing.

In 1985 I started working for Dimension Cable Services which was bought out by Cox Communications. I was a Construction Project Coordinator where I was responsible for the placement of cable television in new subdivision joint trenches and aerial and underground relocations. I have now been employed with Phoenix Union High School district for the past 15 years as the Senior Offset Operator. I manage the district print shop where I serve the printing needs of Administrators, teachers, and most importantly the students. This new career path led me to further my education, I decided to go back to school to obtain an Associates Art degree in Graphic Designs, so I enrolled at Glendale Community College.

I also work for a mission organization called the Harvest Foundation, where I serve as the Global Communication Coordinator. It is my responsibility to notify all of our field missionary associates with updates and progress being made by other associates. I also maintain all aspects of social media and website to keep our donors updated with the work that is being done all around the world by our field missionary associates. In early September of this year, I was afforded the opportunity to be appointed to the board of directors for the Okemah Community Foundation.
